Last Updated: October 10, 2026

1. Acceptance of Terms

Welcome to WatchCraft ("WatchCraft," "we," "our," or "us").

WatchCraft is an interactive watch-party platform that allows users to create and join virtual rooms, watch YouTube videos together, communicate through chat, and interact within a shared 3D environment.

These Terms of Service ("Terms") govern your access to and use of the WatchCraft website, application, rooms and related features.

By accessing or using WatchCraft, you agree to these Terms and our [Privacy Policy] ([INSERT PRIVACY POLICY URL]). If you do not agree to these Terms, you must stop using the service.

Additional terms may apply to particular features where we clearly provide them.

2. Eligibility

You may use WatchCraft only if you are legally permitted to do so under the laws applicable to you.

You are responsible for ensuring that your use of WatchCraft, including participation in public rooms and communication with other users, complies with applicable laws.

If you are not legally permitted to use the service independently, you may use it only where the necessary parent or guardian authorization and other legal requirements have been satisfied.

3. Description of the Service

WatchCraft provides features that may include:

- Creating and joining watch-party rooms.
- Joining rooms through invitation links or room codes.
- Selecting and watching videos through YouTube's embedded player.
- Synchronized video playback, including play, pause and seek.
- First-person 3D virtual room environments.
- Participant lists and role-based access.

- Room chat and communication.
- Public room discovery, genres and active-room listings.
- Host and Moderator controls.

Features may change, become temporarily unavailable or be discontinued as the service develops.

WatchCraft does not host or independently own the underlying YouTube videos played through the embedded player.

4. Accounts, Sessions and Display Names

Some WatchCraft features may be available through a guest session or temporary display name. Other features may require authentication if introduced.

You agree to:

- Provide a display name that does not impersonate another person or mislead other users.
- Keep any account credentials or session access details under your control.
- Avoid attempting to access another user's account or private room without authorization.
- Notify us if you become aware of unauthorized access involving your account, where applicable.

You are responsible for activity conducted through your account or session to the extent permitted by applicable law.

We may restrict access where reasonably necessary to protect the service or other users.

5. Watch Rooms and Invitations

Users may create rooms and invite other people through room codes or shareable links.

Public rooms may appear in room discovery features and may be accessible to other users under the room's access rules.

Private rooms are intended to restrict access to people with an appropriate invitation or valid room code. However, you are responsible for sharing private invitations carefully. A person who obtains a valid invitation may be able to enter the room.

You agree not to:

- Access rooms through unauthorized methods.

- Guess, exploit or manipulate room codes to obtain access without permission.
- Disrupt rooms you are not authorized to manage.
- Interfere with another user's room or session.
- Use room features to evade restrictions imposed by the Host or the service.

A room's Host is responsible for managing access and using available moderation controls appropriately.

6. Roles and Room Permissions

WatchCraft may support the following roles:

Host: The room creator or other person authorized by the service to manage the room. Depending on the available features, the Host may control playback, change videos, assign roles and remove participants.

Moderator: A participant granted designated permissions by the Host or through an authorized process.

Participant: A user who joins the room and receives the permissions assigned to that role.

You agree not to bypass, exploit or interfere with the room's permission system.

You must not impersonate a Host or Moderator, alter your role through unauthorized requests, or attempt to perform actions for which you lack permission.

Role permissions are enforced through the service's implementation and may evolve as features are updated.

7. YouTube and Third-Party Content

WatchCraft uses YouTube's embedded player or related YouTube services to provide video playback.

Your use of YouTube features through WatchCraft is subject to YouTube's Terms of Service, in addition to these Terms.

By using WatchCraft's YouTube-integrated features, you agree to comply with YouTube's Terms of Service.

YouTube videos remain subject to the rights of their respective creators and rights holders. Their availability, playback restrictions, advertisements, age restrictions and other viewing conditions may be determined by YouTube or the content owner.

WatchCraft does not guarantee that a particular video will be available, embeddable or accessible in every country or on every device.

You must not attempt to circumvent YouTube's technical restrictions, access controls, advertisements or other applicable requirements.

WatchCraft does not grant you ownership of, or additional rights to, content provided through YouTube.

You are responsible for the content you submit or share.

By submitting content, you grant WatchCraft a limited, non-exclusive permission to host, transmit, display and process that content as reasonably necessary to operate the features you use, such as delivering chat messages to room participants and displaying your chosen room name.

This permission does not transfer ownership of your content to WatchCraft.
